

The ability  
to interact with  
light and shade  
is the secret.

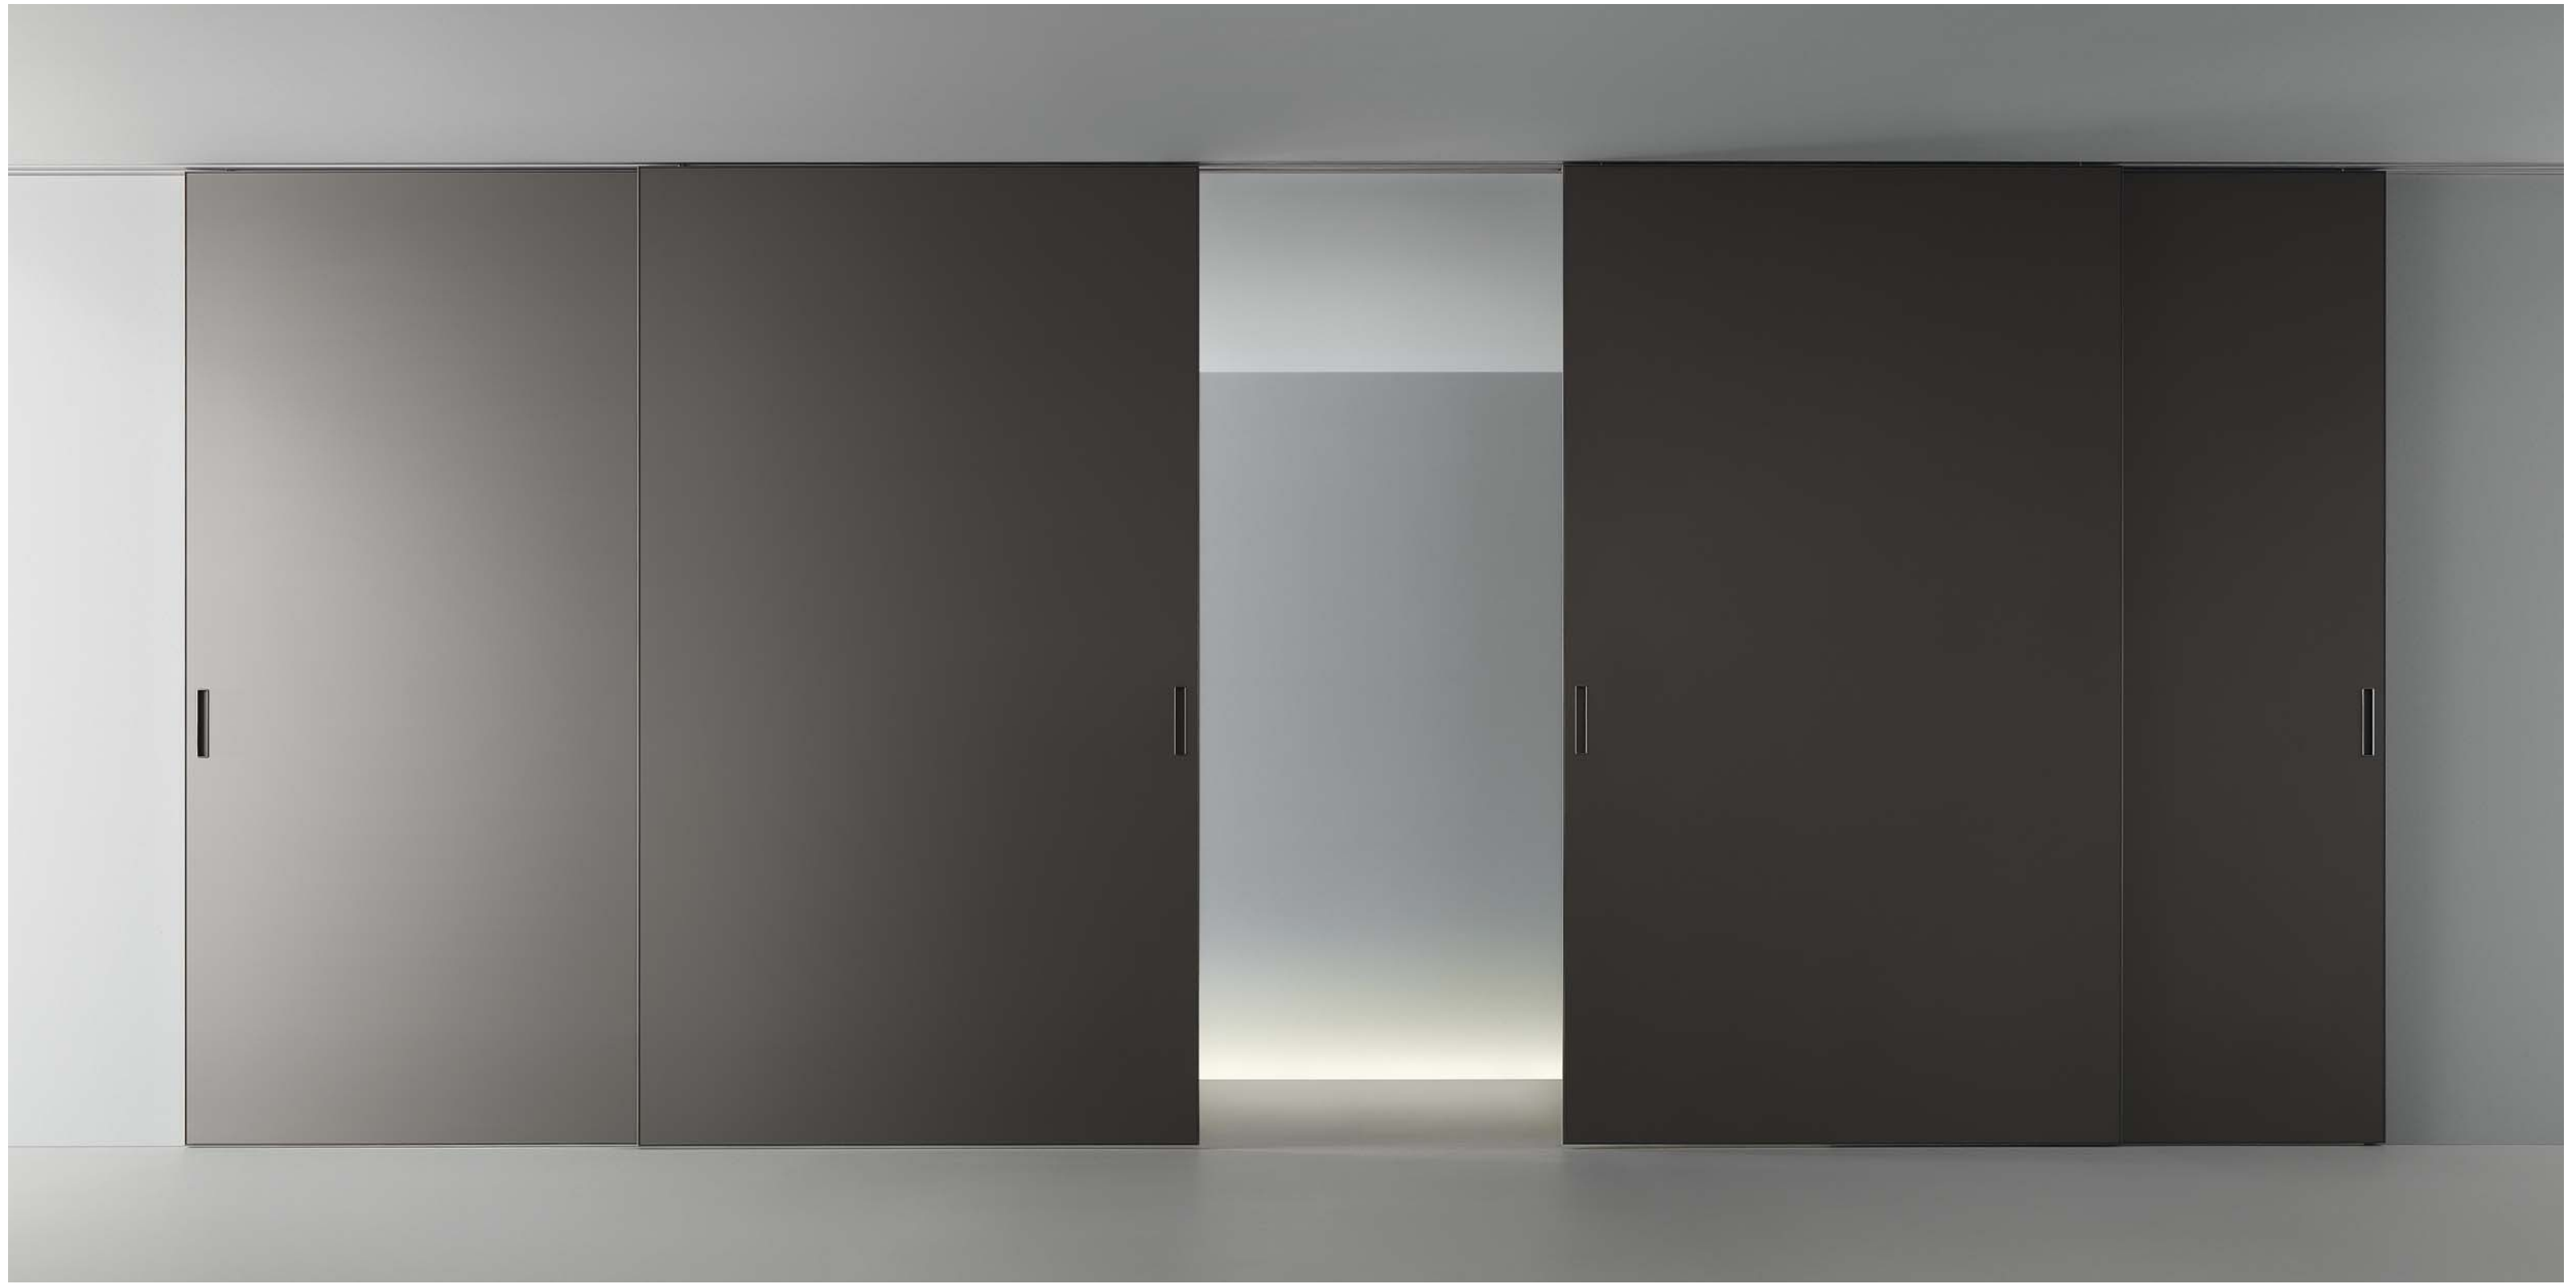

The ability  
to interact with  
light and shade  
is the secret.

Glass is magic, light,  
air, transparency.  
Metal, aluminium  
in particular, is eternal.

On this page and on the previous one:  
Soho sliding panel with walnut veneered aluminium structure and reflective clear glass. Suspended cabinet Self bold in glossy lacquered piombo glass, sides and back frame in brushed lead, top in mat lacquered piombo glass, door profiles in piombo lacquered aluminium. Geometry is the  
skeleton for  
implementation.

Cover composition to best describe the absolute new concept. The supporting structure, fixed to the ceiling and the floor, includes the invisible door hinges and the fixing uprights for the shelves with an internal led lighting system.

On the following pages: Cover composition with brown aluminium frame and grigio ardesia mat lacquered glass doors. Internal equipment in coal larch, hanger bars and pull out trays in castoro regenerated leather. Cover is always customized both in height and in width, in order to always fit to the architecture and the project.

Completely modular and adaptable to spaces with a maximum precision, thanks to its customization, Cover freestanding is a heap of technological and functional innovation, a solution evolved to the needs of the contemporary spaces. The organization of the interior space is achieved through different accessories adjustable in height, through an exclusive patented fixing device, without visible drillings or screws.

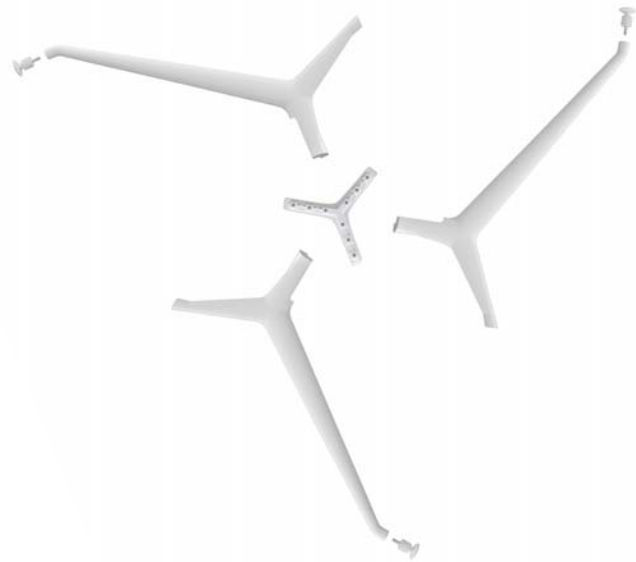

On this page and on the previous one:  
Cover freestanding composition with  
transparent grey tempered glass and  
piombo aluminium structure, floor base  
and top in grey oak melamine, shelves  
in grey transparent glass with piombo  
aluminium ring, pull out accessories  
in argilla regenerated leather.

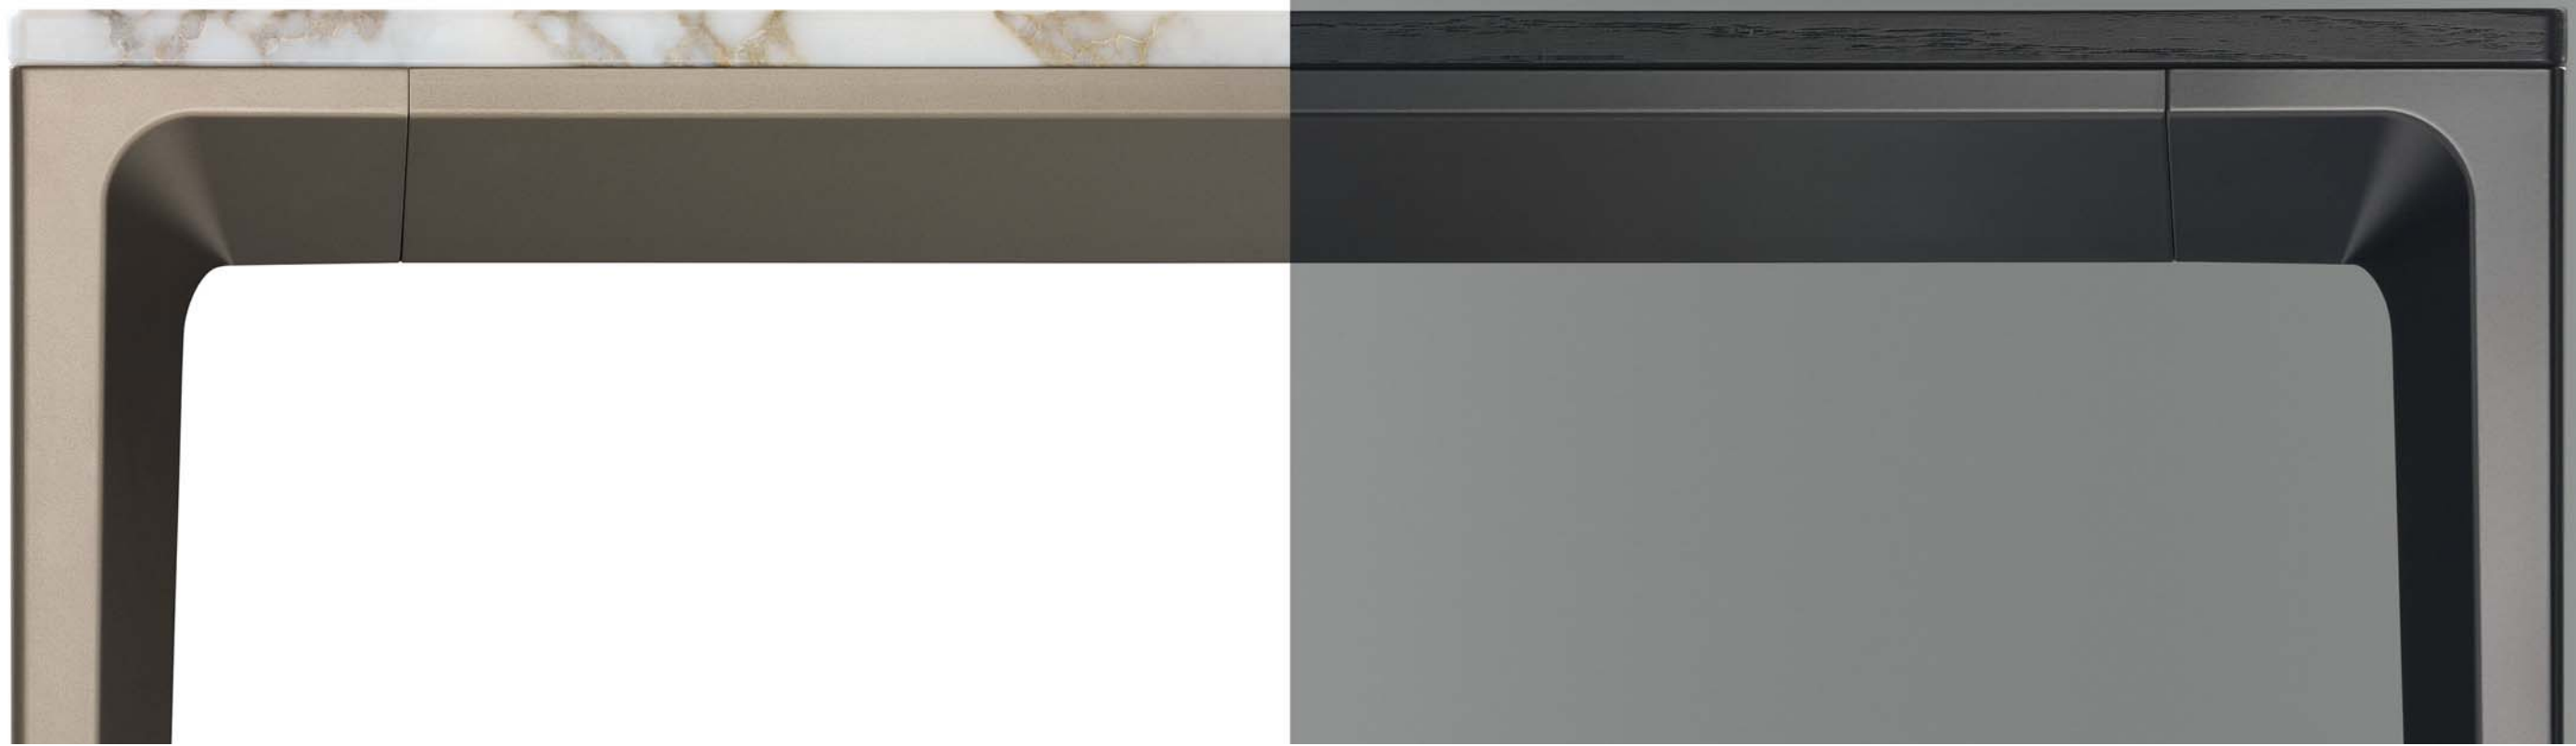

In a space marked  
by abstract horizontal  
and vertical lines,  
objects catalyse it and,  
at the same time,  
expand it.
